Bright, healthy skin has been sought after for the longest time. Dullness and tanning caused by the harsh rays of the sun and environmental factors are some of the most common problems faced by people around the world. What if we told you that there is a 100% organic product that is a one-stop solution to dull, damaged skin? Yes, the Arganic Brown Sugar Scrub and Massage Cream is all you need to brighten skin and rejuvenate it!

The Arganic Brown Sugar and Massage Cream brightens one's skin tone naturally while leaving behind an unforgettable natural scent to make senses fall prey to it. It is brimming with unique ingredients like Organic Argan Oil and Brown Sugar. Organic Argan Oil keeps the skin cell live and helps to repair as well as prevents moisture loss on skin. It also revitalizes the skin and gives a boost to vital cell functions. Brown Sugar is derived from sugar cane which works as a mild exfoliant, breaking down dead skin cells and helping to create new cell turnover.

BENEFITS

Arganic Brown Sugar Scrub and Massage Cream packs manifold benefits. The natural property of brown sugar crystals gently exfoliates the skin while buffing away dead skin cells. Its aromatic scent invigorates the senses and revitalizes the skin cells. Its unique lightening formula removes tanning effects of the sun, evens out skin-tone, fights against age spots and freckles as well as general skin pigmentation disorders.

USAGE

Apply Arganic Brown Sugar Scrub and Massage Cream all over the face and massage in an upward circular motion for 3 to 5 minutes. This scrub contains tiny particles that help rub away dead skin cells (exfoliate). This will make facial skin smoother and fresher while unclogging pores. After scrubbing, put a few drops of Aryanveda Instaglow Micellar water on the face. Scrubbing granules convert into massage cream, and then massage thoroughly. Rinse off with clear water. Use regularly for best results. **SS**
